

— Welcome Scott Molenburg —

We are pleased to announce Scott Molenburg joining the Can/Am Technologies team as Senior Account Executive.

Scott joins Can/Am as a Senior Account Executive for the Southeastern United States, covering Florida to Texas. As an AE he will be responsible for lead generation, sales to new and existing clients and RFP preparation. He will also serve the role of part-time Support Specialist and provide his expertise to implementation projects.

Scott brings over 30 years of tech experience with several leading municipal technology solutions companies including Tyler Technologies, SunGuard, BS&A, Municipal Code Corporation, and others. While at Municipal Code Corp., his passion for solving and enhancing customer experiences excelled while working with municipal customers and end users across the country. At one point, he was responsible for technology and the sales team at Municipal Code. In that position he learned that the sales team focus was not just sales results, but also to solve problems for clients. As part of the Tyler Technologies Team, he worked with municipal customers across the Southeast developing extensive relationships with clients.

Scott is truly passionate about using technology to leverage and solve problems. His persistence has led to increasing efficiencies and enhancing user experiences aimed at reducing and eliminating end user frustration with solutions and processes that were not meeting their needs.

In his free time, Scott enjoys spending time with his family and watching professional and college football. He recently became a first-time grandfather and is looking forward to meeting his new grandson very soon. If you were to ask Scott he would tell you he absolutely loves what he's doing and that if you can accomplish that, you'll never work a day in your life.

Please join us in welcoming Scott Molenburg to the Can/Am family.

About Can/Am Technologies, Inc., and the Teller Cashiering Solution

For over 20 years, Can/Am Technologies, has provided powerful state-of-the-art cashiering solutions to local and state government clients across North America. Can/Am's Teller Cashiering Solution is a full featured browser-based Cashiering / Point of Sale/Online system that delivers robust reporting, collection, and management functionality. Teller's modern integration technology is praised for being intuitive and easy-to-use while also able to be seamlessly incorporated into a multitude of software integrations. Can/Am has earned a solid reputation for providing high level ongoing hands-on client support. Can/Am is SOC2 certified.
